

**Welcome to NeuroHackademy 2020**

I wish you were all here...

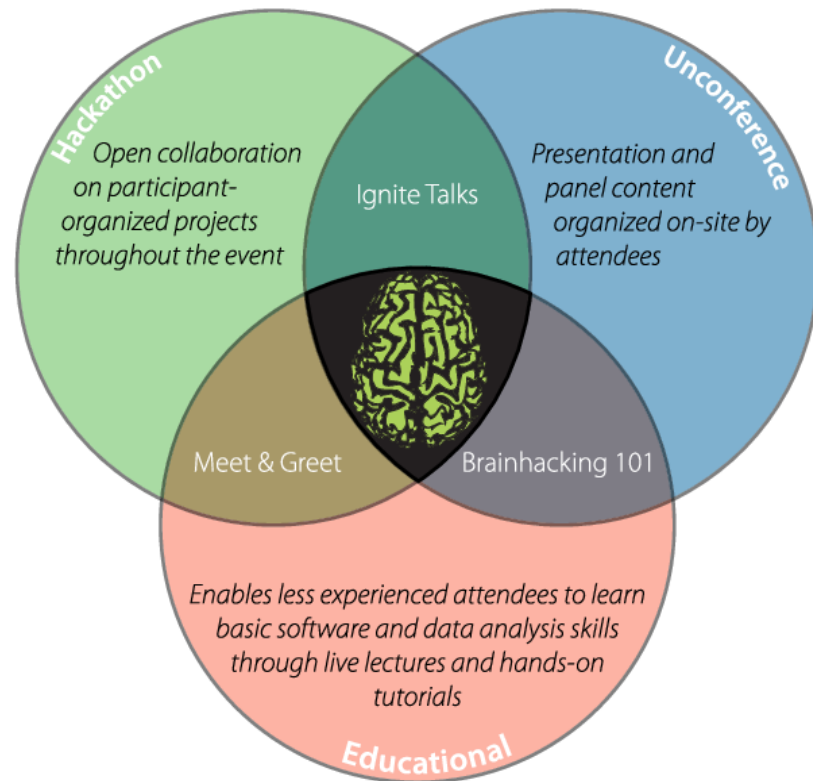

# What is NeuroHackademy?

A summer institute in neuroimaging and data science

- A summer school
- A (un)conference
- A hackathon

# Brainhack

## The hacker ethos (based on Steven Levy's, "*Hackers*")

- The hands-on imperative
- Sharing
- Information should be free
- Mistrust authority - promote decentralization
- ~~Meritocracy~~ Inclusivity
- You can create beautiful things with computers
- Computers can change your life for the better

# The hacker ethos meets the reproducibility ~~erisis~~ renaissance

## **The era of brain observatories**

Large-scale open datasets

- Data-intensive methods
- Open-source software
- Team science

## **Data-intensive methods**

You're going to hear a lot about machine learning (and statistics)

But also:

- Data management
- Data visualization
- Workflows

# Open-source software

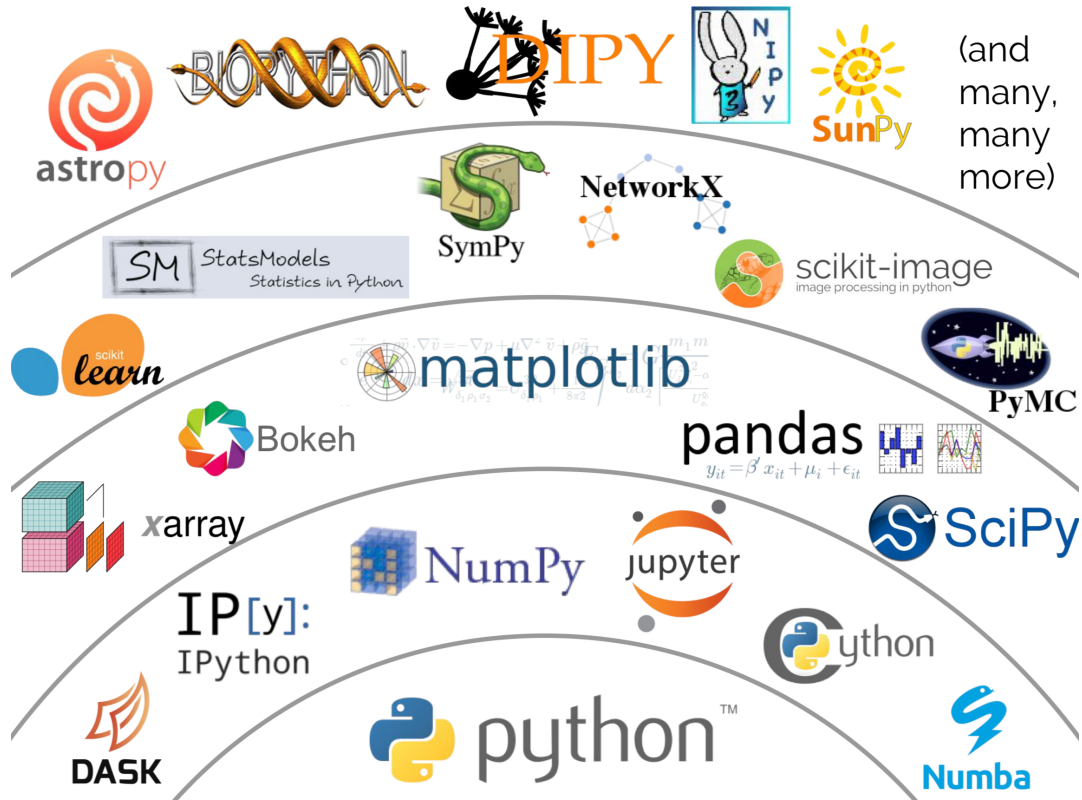

## Python

- Neuroimaging in Python
- Scipy / Pydata
- Python in industry

# IEEE Spectrum PL ranking 2020

Rank	Language	Type	Score
1	Python ▼	  	100.0
2	Java ▼	  	95.3
3	C ▼	  	94.6
4	C++ ▼	  	87.0
5	JavaScript ▼		79.5
6	R ▼		78.6
7	Arduino ▼		73.2
8	Go ▼	 	73.1
9	Swift ▼	 	70.5
10	Matlab ▼		68.4

# Scientific python ecosystem

(From Jake Vanderplas' PyCon talk, 2017)

## Python in neuroimaging

Fraction of Google searches for tutorials

(Poldrack, Gorgolewski & Varoquaux, 2019; updated in

<https://twitter.com/GaelVaroquaux/status/1263413593615273986>)

## Python in neuroimaging

pubmed counts

(Poldrack, Gorgolewski & Varoquaux, 2019; updated in

<https://twitter.com/GaelVaroquaux/status/1263413593615273986>)

## Python in neuroimaging

(Poldrack, Gorgolewski & Varoquaux, 2019; updated in

<https://twitter.com/GaelVaroquaux/status/1263413593615273986>)

## Team science

- Methods for collaborative software development and analysis
- Methods and considerations in sharing of research products
- A space to safely experiment with team science

**Wait, isn't this neuromatch academy?**

- Focus on *human neuroscience*
- Focus on technical and methodological issues
- Focus on hacking

## Who are you?

- Some experience with neuroscience
- Some experience with programming
- Imposter syndrome disclaimer

# The plan

Monday	Tuesday	Wednesday	Thursday	Friday
<p><b>7:00am</b> <b>Introduction to NeuroHackademy</b> <i>Ariel Rokem</i> <i>Tal Yarkoni</i></p> <p><b>8:00am</b> <b>Reproducibility in fMRI: What is the problem?</b> <i>Russell Poldrack</i></p> <p><b>9:30am</b> <b>Ethics in neuroimaging and data science</b> <i>Tal Yarkoni</i></p> <p><b>10:30am</b> <b>Ice-breaker</b></p> <p><b>12:00pm</b> <b>Introduction to programming in Python</b> <i>Tal Yarkoni</i></p> <p><b>12:00pm</b> <b>High-performance Python</b> <i>Ariel Rokem</i></p> <p><b>2:00pm</b> <b>From interactive exploration to reproducible data science: Jupyter, Binder, Travis and friends.</b> <i>Fernando Perez</i></p>	<p><b>7:00am</b> <b>Version control with git/GitHub</b> <i>Elizabeth DuPre</i></p> <p><b>7:00am</b> <b>Docker</b> <i>Chris Gorgolewski</i></p> <p><b>9:00am</b> <b>Data manipulation in Python (Numpy/Pandas)</b> <i>Tal Yarkoni</i></p> <p><b>9:00am</b> <b>Creating share-able Python libraries</b> <i>Ariel Rokem</i></p> <p><b>12:00pm</b> <b>Introduction to Machine Learning</b> <i>Tal Yarkoni</i></p> <p><b>12:00pm</b> <b>Data visualization in Python</b> <i>Kirstie Whitaker</i></p> <p><b>1:30pm</b> <b>Meta-analysis and reproducibility</b> <i>Angela Laird</i></p> <p><b>1:30pm</b> <b>The difference between prediction and explanation</b> <i>Jeanette Mumford</i></p>	<p><b>7:00am</b> <b>Workflows/Nipype</b> <i>Satra Ghosh</i></p> <p><b>7:00am</b> <b>NiBabel: Neuroimaging data and file structures in Python</b> <i>Chris Markiewicz</i></p> <p><b>9:00am</b> <b>Nilearn</b> <i>Elizabeth DuPre</i></p> <p><b>9:00am</b> <b>Nipreps</b> <i>Oscar Esteban</i></p> <p><b>11:00am</b> <b>Brain Imaging Data Structure (BIDS)</b> <i>Kirstie Whitaker</i></p> <p><b>12:00pm</b> <b>Visualizing invasive and non-invasive EEG data</b> <i>Liberty Hamilton</i></p> <p><b>12:00pm</b> <b>Introduction to the Geometry and Structure of the Human Brain</b> <i>Noah Benson</i></p> <p><b>1:30pm</b> <b>Word embeddings as priors for language encoding models</b> <i>Alex Huth</i></p> <p><b>1:30pm</b> <b>Reproducibility: what you need to know from epistemology to statistics</b> <i>JB Poline</i></p>	<p><b>7:00am</b> <b>Machine learning for neuroimaging</b> <i>Gael Varoquaux</i></p> <p><b>9:00am</b> <b>Functional brain parcellation</b> <i>Pierre Bellec</i></p> <p><b>9:00am</b> <b>Cloud computing for neuroimaging</b> <i>Tara Madhyastha</i> <i>Amanda Tan</i> <i>Ariel Rokem</i></p> <p><b>11:00am</b> <b>Panel discussion: neuroimaging and data science careers</b> <i>Chris Gorgolewski</i> <i>Anisha Keshavan</i> <i>Chris Chatham</i></p> <p><b>12:00pm</b> <b>Testing and accounting for confounding variables</b> <i>Manjari Narayan</i></p> <p><b>12:00pm</b> <b>Optimization (ADSI)</b> <i>Sasha Aravkin</i> <i>Prasanna Raut</i> <i>Kelsey Maass</i> <i>Maryam Fazel</i></p> <p><b>1:30pm</b> <b>Optimal transport (ADSI)</b> <i>Zaid Harchaoui</i> <i>Lang Liu</i></p> <p><b>1:30pm</b> <b>Aligning neural recordings across time, space, and behavior</b> <i>Eva Dyer</i></p>	<p><b>7:00am</b> <b>Brain hacking 101</b> <i>Ariel Rokem</i> <i>Tal Yarkoni</i></p>

[https://neurohackademy.org/neurohack\\_year/2020/](https://neurohackademy.org/neurohack_year/2020/)

## Hackathon?

- #project-pitches channel
- Projects doc
- What makes a good project
- Convene a BOF! #bof channel

## Getting help

- Q&A during each session
- Dedicated session channels
- Neurostars: <https://neurostars.org/c/neurohackacademy/>
- Take charge! Self-organize!

**Jupyterhub**

<http://hub.neurohackademy.org>

## This is also a social event (I hope)

- Code of conduct: <https://neurohackademy.org/code-of-conduct/>
- Let's get together!
- Ice-breaker today at 10:30 (Gather town)
- Jitsi
- Find your BoFs!

## The team

- The (fantastic) instructors
- ADSI (<http://ads-institute.uw.edu/>)
- Evaluator -- Jack Van Horn
- Jane Koh
- Jennifer Vo
- Erik Sundell

# Thank you!

Particular, funding from:

- National Institute for Mental Health
- NSF
- The University of Washington eScience Institute
- INCF (Neurostars)
